

A BREAKTHROUGH IN BREAKAWAY TECHNOLOGY

REPAIR SIGNS IN MINUTES FOR UNDER \$14

- SIGN POST IMPACT DAMAGE PROTECTION
- HIGH QUALITY GALVANIZED STEEL
- RE-USABLE FOR LIFE

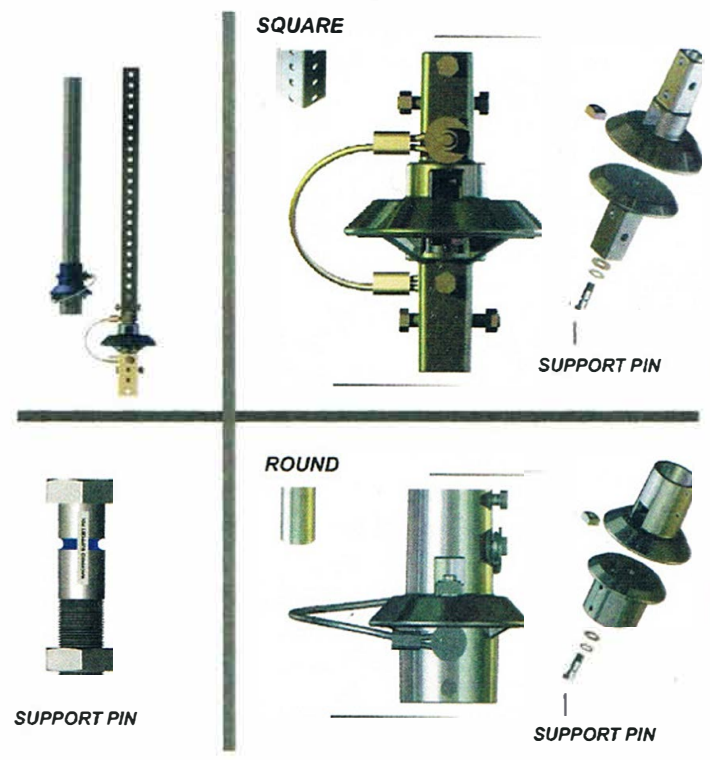

Sign Post Savers (SPS) offers **Impact Damage Protection** for signs, sign posts, and the concrete base.

The SPS is a **Re-usable Breakaway System** built for a wide variety of sign posts. Once installed onto the base of your post the unit is specially designed to breakaway when hit by a vehicle.

To get your sign back in action you simply lift it into place and install a new support pin **For Less Than \$14 Dollars**. This offers considerable savings when compared to replacing signs and posts which can easily range upwards of \$500.00 dollars.

The SPS has an **Attached Safety Cable** that keeps the knocked over sign from causing harm to drivers, pedestrians, vehicles and property. The safety cable also limits skid damage to the sign.

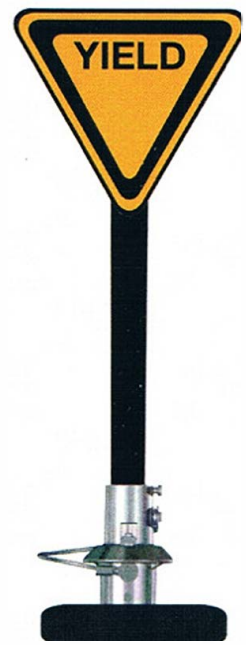

Sign Post Savers is made with high quality galvanized steel. The SPS is **Durable And Built To Last For Life**. Extensive crash, wind, and yield testing has been done to insure that Sign Post Savers offers the best re-useable system available.

SPECIFICATIONS FEATURES AND BENEFITS

SPS

Sign Post Savers (SPS) offers safe impact damage protection for signs, sign posts, and the concrete base. The re-usable breakaway system, is built for a wide variety of square and round sign posts that lasts for life.

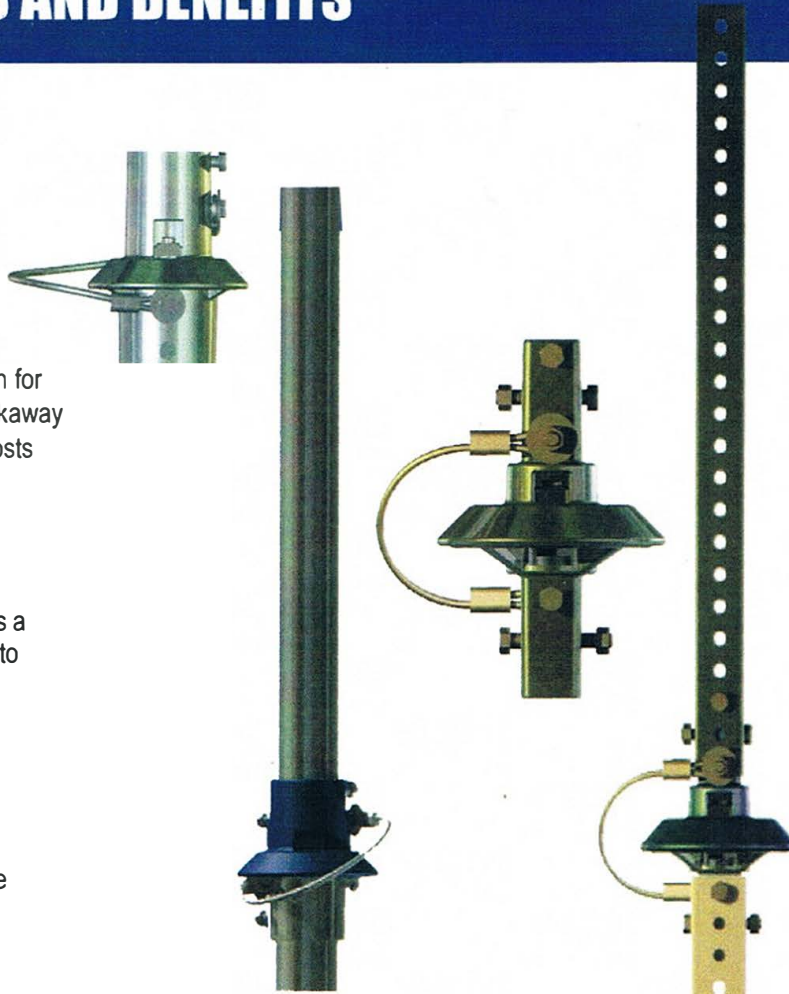

Features And Benefits

Thoroughly tested and proven durable, the Sign Post Saver is a cost effective safety designed breakaway system that is built to last for life.

The unit is specially designed with a inclined plane that is circular supported, this assists the machined support pin and holds the sign post rigidly in place for long term durability. When run over by a vehicle the support pin is put into a brief vertical tension condition upon impact and then gives way, the attached cable lays the sign post down safely.

Other Benefits Include:

- Industry Leading Lifetime Re-usable Breakaway System.
- High Quality Galvanized Steel Construction.
- SPS Replacement Cost Under \$14.
- Stand Up Your Sign In Minutes
- 98% Re-Usable.
- Cadmium Coated Rust Proof
