

TELESPAR® SLIP BASE BREAKAWAY SYSTEM

Telespar is proud to introduce our Slip Base Breakaway System. Well known in the industry and tested to NCHRP Report 350 guidelines, the Slip Base Breakaway System has been the industry standard for decades.

Compatible with 2.5" Telespar square posts, the bolt head will breakaway when the proper installation torque is reached. Installation only requires a socket wrench, providing ease of mind for installation and maintenance crews.

Features and Benefits

- Compatible with standard 2.5" Telespar Square post product
- Designed to minimize the damage to the vehicle upon impact within NCHRP Report 350 crash test standards
- Tested to NCHRP Report 350 and designed to AASHTO guidelines
- Bolt head shears once correct torque is achieved
